

Is your current curriculum too expensive & too time-consuming?

Let's face it ... a curriculum only benefits the children if you use it. A book that sits on the shelf or a box of materials collecting dust in the corner does not benefit anyone. Too often, when curriculum programs are not designed with family child care providers in mind, this is exactly what happens.

There IS a better option.

Gee Whiz Education

Many early childhood curriculum options are...

- ☹️ Expensive - you pay for printing & shipping
- ☹️ Lack innovation
- ☹️ Require extensive training
- ☹️ Lack daily lesson plans
- ☹️ Are more "theoretical" and less practical
- ☹️ Designed by companies that are not dedicated to family child care

Gee Whiz is a better curriculum choice for providers because it is...

- ☑️ Economical & innovative - using technology to save you \$
- ☑️ Easy-to-implement
- ☑️ Includes FREE webinar training
- ☑️ Puts theory into practice with daily lesson plans
- ☑️ Is written & designed by a company dedicated to family child care

Keep more money in your business when you choose Gee Whiz

Because Gee Whiz is dedicated to family child care, we understand how tight your budget is and want to help. At Gee Whiz, we believe that quality CAN be offered at a price that does not break the bank. When you take a look at all Gee Whiz has to offer, you will quickly see why it is a better curriculum choice for your program.
