Confidence is important.

At Gee Whiz, recognize how important it is for FCC and FFN providers to be confident in their role as educators.

This confidence translate into higher quality learning experiences and interactions with children.

Helping FCC & FFN Providers Build Confidence

Family child care and FFN (Family, Friend & Neighbor) providers play an extremely important role in the child care marketplace. Millions of children every day are cared for by providers in these environments. It is critical that these providers are confident in their roles as educators. Please join Gee Whiz as we engage in an interactive webinar where we explore the challenges faced by FCC/FFN providers as well as how we all can help providers build confidence. There will be plenty of time to share during this webinar.
