

What? Why? How?

The Power of Open-Ended Questions

A FREE Training
Webinar hosted
by Gee Whiz

What is an open-ended question? Why are open-ended questions important? How can you incorporate open-ended questions into your day? These are just a few of the open-ended questions we will answer during this very interactive webinar! At the end of the webinar, you will walk away with a strong understanding of how to formulate open-ended questions and then use them with children AND families. You will also be able to add more open-ended questions into your day which should help to increase your adult-child interactions (which is an area evaluated on commonly-used environmental rating scales).
